RESPONSE TO HOLDING OF LACK OF UNITY OF INVENTION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Official Action dated April 2, 2008, the following remarks are submitted.

The aforementioned Official Action indicates that the claims in this application are directed to three different inventions that lack unity of invention. As identified in the Official Action, the three claim groupings are as follows.

Group I invention defined in Claims 1-6, 9-11 and 13-17 drawn to an apparatus for sealing a packaging including a force-restricting coupling member.

Group II invention depicted in Claims 7 and 8 drawn to an apparatus for sealing a package, including higher and lower speeds of movement.

Group III invention illustrated in Claim 12 drawn to a method of sealing a package including an ultrasound sealing until.

Based on the observation that the three inventions lack unity of invention, a requirement has been imposed to elect one of the three groups of claims.

Applicants hereby elect, with traverse, the Group I set of claims, Claims 1-6, 9-11 and 13-17.

The election of the Group I claims is made with traverse because it is believed that the claims of this application do comply with the unity of invention requirement, as evidenced at least in part by the observation that concern about unity of invention does not appear to have been raised in the corresponding international application where claims similar to some of those at issue here were considered. Additionally, it is believed that the search required for elected Claims 1-6, 9-11 and 13-17 would likely extend into those areas where the other claims would be searched, and examining all of the claims in this application would likely not be seriously burdensome as it would involve consideration of only a few additional claims.

In light of the foregoing, withdrawal of the holding of lack of unity of invention, and examination of all of the claims of this application, including elected Claims 1-6, 9-11 and 13-17, are respectfully requested.

Should any questions arise concerning this application, the undersigned respectfully requests that he be contacted at the number indicated below.

Respectfully submitted,

BUCHANAN INGERSOLL & ROONEY PC
